

# "FIRST ANNUAL GREEN FESTIVAL A GREAT SUCCESS!"

The first annual Farmington Woods Green Festival was held in the North and South Lounges of the Clubhouse on October 17th. Over 20 vendors participated showing their wares - from window replacement to new HVAC, insulation and more. Included were also, people from Talcott Mountain Science Center, CT Clean Energy and a couple of our state and town legislators. It is estimated that well over 200 FW residents came to listen, and learn how to Go Green, \$ave Green.
